Many cities around the world face a growing water crisis. As populations rise, the demand for clean water increases, while rivers, lakes and underground reserves shrink. Experts argue that building more dams alone cannot solve the problem. A more lasting answer lies in managing water wisely. Rainwater harvesting allows households to store rain and use it for gardens and cleaning. Treating used water and reusing it for industry reduces the load on fresh supplies. Fixing leaking pipes can save as much water as a small reservoir holds, yet it receives little attention. Finally, citizens must learn to value

water as a limited resource rather than a free gift. Without such changes, even well-planned cities may run dry within a few decades.

Q.21 What is the central idea of the passage?

(A) Cities must manage water wisely, not rely only on dams

(B) Dams remain the only dependable source of city water

(C) Rainwater cannot be used safely for any household work

(D) Industries should be banned from using any fresh water at all

Q.22 According to the passage, what can fixing leaking pipes achieve?

(A) Increase the flow of water in nearby rivers

(B) Reduce the number of people moving into cities

(C) Supply treated water directly to large factories and mills

(D) Save a quantity of water similar to a small reservoir

Q.23 Which of the following can be inferred from the passage?

(A) Most large cities currently enjoy an excess of fresh water for all uses

(B) Ordinary citizens can do very little to ease water shortages

(C) Ignoring conservation may leave even planned cities short of water

(D) Reusing treated water costs more than using fresh supplies

Q.24 The word "lasting" as used in the passage is closest in meaning to

(A) durable **(B)** temporary **(C)** costly **(D)** sudden

Q.25 Which of the following is the most suitable title for the passage?

(A) A Brief History of Large River Dams

(B) Managing Water Wisely in Growing Cities

(C) Why Household Rain Storage Often Fails

(D) The Rise of Heavy Industry in Modern Cities
